PROFILE SUMMARY

Experienced Test Engineer with a strong foundation in manual and automated testing. Skilled in REST API testing, system validation, and defect management, with the ability to ensure high quality software delivery across complex systems. Brings consulting experience, strong analytical thinking, and the ability to align testing activities with business and technical requirements.

EDUCATION

2019-2021
NELSON MANDELA UNIVERSITY
BSc Computer Science & Applied Mathematics

SKILLS

- End to end quality assurance across functional, regression, integration, and API testing
- Test automation using Leapwork and AccelQ. Learning Playwright (JavaScript/Typescript)
- API testing and validation using Postman, including scripting with JavaScript
- Strong SQL skills for backend testing, data validation, and query optimisation
- Experience with Agile delivery and tools including Azure DevOps, Jira, and Xray

WORK EXPERIENCE

LINKITSYSTEMS

APR 2025 - PRESENT

Test Engineer II

- Designed and executed manual and automated test cases for functional, regression, and integration testing
- Performed REST API testing using Postman to validate system behaviour and data accuracy
- Developed comprehensive test plans covering scope, timelines, and test strategy
- Logged, tracked, and verified defects, improving system stability and release quality

Deloitte

MAR 2023 - MAR 2025

Analyst

- Designed and executed functional, regression, and integration test cases across multiple projects
- Conducted REST API testing using Postman to validate endpoints and responses
- Participated in Agile Scrum ceremonies, ensuring timely defect resolution
- Collaborated with stakeholders to gather requirements and ensure test coverage
- Produced clear and structured test documentation

Deloitte

JAN 2022 - MAR 2023

Junior Analyst - InfinityX Grad program

- Executed predefined test cases and identified defects
- Logged and tracked bugs using defect management tools
- Maintained test documentation and ensured traceability
- Assisted in reviewing requirements for testability
